

Rejoining the Local Government Pension Scheme (LGPS)

This information applies only to Scheme members who left an employment after 31 March 2014 with an entitlement to a deferred refund which is based on post 31 March 2014 membership (or on membership which is treated as post 31 March 2014 membership) only and who have now re-joined the LGPS

You have re-joined the Local Government Pension Scheme (LGPS) and we note you already have a deferred refund account in the Scheme.

As you have now re-joined the LGPS you are no longer eligible to take a refund of the contributions in your deferred refund account and so the amount of pension in your deferred refund account will automatically be transferred and added into your new active pension account.

Options Available

As you have more than one active pension account (because you have more than one current employment in which you are contributing to the LGPS) you will need to decide which active pension account you wish your deferred refund account to be combined with.
